

Tiara Pujilestari

Front-End Developer | Web Engineer

Pekanbaru, Indonesia | 0857-1644-6141 | tiarapujilestari009@gmail.com | linkedin.com/in/tiarapujilestari9 | github.com/tiarapujilestari

SUMMARY

Entry-level Front-End & Web Developer with a Bachelor's degree in Informatics Engineering, currently expanding into full-stack development through an AI Full Stack Development bootcamp. Hands-on experience building responsive interfaces with React, TypeScript, and Tailwind CSS, and back-end systems using Node.js, Prisma, and PostgreSQL — including JWT authentication, REST API design, and database modeling — through personal and academic projects. Brings real-world website quality assurance experience — bug tracking and regression testing — from a professional QC role, with strong attention to detail and a track record of bridging technical and non-technical teams.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, React, JavaScript (ES6+), TypeScript, Basic UI/UX Implementation (Figma), Responsive Web Design

Back-End & Database: REST API Integration (Basic), MySQL, PostgreSQL, Neon, SQL Fundamentals

Tools: Git & GitHub, Visual Studio Code, Browser DevTools

Quality Assurance: Manual Website Testing, Regression Testing, Bug Tracking & Reporting

Soft Skills: Analytical Thinking, Attention to Detail, Cross-team Communication

PROJECTS

Concert & Event Ticketing Platform (In Progress — July 2026)

07/2026

Stack: React, TypeScript, JavaScript, Tailwind CSS, Vite (Front-End) · Node.js, Prisma, PostgreSQL, Swagger (Back-End)

- Building a full-stack ticketing platform for concerts and events in Indonesia, independently developing both front-end and back-end
- Implemented user registration and login with JWT-based authentication, password hashing, and middleware for route protection
- Built the booking flow end-to-end, from ticket selection through to payment
- Designed the database schema and REST API using Prisma ORM and PostgreSQL, with API documentation via Swagger; integrated Cloudinary for media uploads
- Currently in active development; GitHub repository and live demo to be published upon completion

Food Ordering Flow System — RS Awal Bros Pekanbaru

04/2026

Stack: HTML, TypeScript, JavaScript, Tailwind CSS, Git

- Acted as a key stakeholder in defining and structuring the end-to-end ordering process flow — from menu selection to order confirmation — aligning the system logic with hospital operational requirements
- Contributed to UI/UX design, translating the defined process flow into a functional, user-friendly interface
- Contributed to functional testing and helped establish testing protocols, tracking bugs and validating fixes prior to release

Daily Food Procurement System — RS Awal Bros Pekanbaru

04/2026

Stack: HTML, TypeScript, JavaScript, Tailwind CSS, Git

- Involved in system design decisions for a daily food & kitchen item procurement website, including defining the purchasing workflow, user roles and permissions, and account structure
- Contributed to UI/UX design and layout decisions to support the procurement process
- Conducted functional testing on the system, identifying issues and validating them prior to release

Bokvra Coffee & Resto — Brand & Menu Website

03/2026

Stack: HTML, TypeScript, JavaScript, Tailwind CSS, Git

- Independently built the entire website end-to-end — from UI/UX design to front-end development and deployment — for Bokvra Coffee & Resto, translating the "ngopi nyaman rumah" brand concept into a warm, responsive layout using JavaScript and Tailwind CSS
- Built a digital menu section with category filtering (coffee / non-coffee), enabling users to browse offerings without page reloads
- Deployed live via Vercel: <https://bokvra-space.vercel.app/>

Personal Portfolio Website

11/2025

Stack: HTML, TypeScript, JavaScript, Tailwind CSS, Node.js, React.js, Git

- Built a responsive personal portfolio website using React.js and TypeScript, styled with Tailwind CSS for a clean, mobile-friendly layout
- Implemented a contact form integrated directly with email delivery, allowing visitors to reach out without leaving the site
- Live demo: <https://portofolio-tiarapujilestari.vercel.app/>

EXPERIENCE

Website & System Quality Control

Nov 2025 – Present

PT Cahaya Perdana Nusantara (Nutrition Services partner of RS Awal Bros Group) — Pekanbaru, Indonesia

- Performed manual QA testing on company website systems, identifying and documenting functional bugs, UI/UX issues, and usability gaps for the development team
- Executed regression testing to validate system updates before release, ensuring functionality and data accuracy
- Collaborated directly with developers to reproduce reported issues and verify fixes, strengthening cross-functional communication between technical and operational teams
- Maintained data consistency between operational records and website systems through structured administrative and reporting processes

ADDITIONAL EXPERIENCE

Customer & Order Administration

Online Store

2021 – 2023

Managed order data entry and handled customer inquiries, building strong attention to detail and communication skills later applied in QA and cross-team coordination.

Frontliner

Trans Studio Mini Pekanbaru

2018 – 2020

Delivered front-facing customer service in a fast-paced environment, strengthening real-time problem-solving and communication under pressure.

EDUCATION

Bachelor of Informatics Engineering

Expected 11 2026

Universitas Muhammadiyah Riau — Pekanbaru, Indonesia

- Relevant coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Web Programming, AI Fundamentals
- Thesis: "Application of the XGBoost Algorithm for Predicting Kitchen & Nutrition Item Purchases at Rumah Sakit Awal Bros Pekanbaru" — applied machine learning to build a predictive model for hospital procurement, covering data preprocessing, model training, and evaluation

AI Full Stack Development Bootcamp

Apr 2026 – Present

Purwadhika Digital Technology School

LANGUAGES

Indonesian — Native English — Conversational
